FAYDA National ID Verification & Access Control System

INSA Cyber Talent Center – Summer Camp 2025

- Built a unified platform for Ethiopian companies and institutions
- Implemented 'One ID, Everywhere Access' solution
- Tech Stack: React.js, Node.js, Express, MySQL (via MAMP)
- Participated in mindset training, exercises, and assessments

Education

Bachelor of Computer Information Science

Addis Ababa University | 2014 - Present

- Relevant Coursework
 - Programming Languages (C, Java, Python, C++)
 - Internet Programming, Data Structures & Algorithms
 - System Analysis & Design, Object-Oriented Programming
 - Database Management, AI, Cybersecurity, Networking

AI & Career Empowerment Program

University of Maryland | 2025

- Explored Artificial Intelligence applications in business
- Learned career development strategies and professional growth techniques
- Studied organizational integration of AI technologies

Projects

Amazon Clone

- Built a full-stack e-commerce platform with React, Node.js, and Firebase
- Implemented user authentication, product catalog, and shopping cart
- Integrated Stripe for payment processing
- **Tech Stack:** React, Node.js, Firebase, Stripe API

Evangadi Forum

- Developed a Q&A forum application for Evangadi Bootcamp
- Features include user authentication, question posting, and answer voting
- **Tech Stack:** React, Node.js, Express, MySQL
- [Live Demo \(https://evangadi-forum-temesgenabdissas-projects.vercel.app/\)](https://evangadi-forum-temesgenabdissas-projects.vercel.app/) | [GitHub \(https://github.com/temesgen-abdissa/EvangadiForum\)](https://github.com/temesgen-abdissa/EvangadiForum)

Telegram Fetching Bot

- Built a bot that fetches data from Telegram channels and groups
- Implemented configurable settings and data storage
- **Tech Stack:** Python, Telegram API, Database
- [GitHub \(https://github.com/temesgen-abdissa/TelegramFetching\)](https://github.com/temesgen-abdissa/TelegramFetching)

AbeGeraji (Garage Management System)

- Developed a comprehensive system for vehicle maintenance and scheduling
- Features include inventory tracking and service scheduling
- **Tech Stack:** React, Express, Node.js, MySQL
- [GitHub \(https://github.com/temesgen-abdissa/ABE-Garaji\)](https://github.com/temesgen-abdissa/ABE-Garaji)

Technical Proficiencies

Programming Languages

- JavaScript/TypeScript (Advanced)
- Python (Advanced)
- Java (Intermediate)
- C/C++ (Intermediate)
- PHP (Advanced)
- Kotlin (Intermediate)

Frameworks & Libraries

- **Frontend:** React, Next.js, Redux, React Three Fiber
- **Backend:** Node.js, Express, Django, Flask
- **Mobile:** React Native, Flutter
- **Testing:** Jest, Mocha, Chai

Tools & Platforms

- **Version Control:** Git, GitHub, GitLab
- **Cloud Services:** AWS, Vercel, Netlify, Heroku
- **Databases:** MongoDB, MySQL, PostgreSQL, Redis
- **Dev Ops:** Docker, CI/CD, GitHub Actions

Certifications

- Full Stack Web Development - Evangadi Networks (2025)
- ALX Software Engineering Program (2024)
- INSA Cyber Talent Summer Camp (2025)
- AI & Career Empowerment - University of Maryland (2025)

Interests

- 3D Graphics & Animation
- Open Source Contribution
- Machine Learning & AI
- UI/UX Design
- Technical Writing & Mentorship
- Competitive Programming
